You should have their passwords so you can see if they are getting into dangerous situations or are exhibiting inappropriate speech or behavior. 2 Set the Privacy settings on your profile to "Friends." By doing this, you will be able to have control who has access to your information and pictures. Don't hesitate for a second to "un-tag" yourself from pictures that you do not approve of. The longer and more complicated the password, the safer you are from getting your account hacked. You can, though, respect your children's individuality and take advantage of online Monitoring services. Don't be caught with drugs, especially if you're underage because anyone can just print out the picture and show it to your parents or principal. The PCWorld editorial team does not participate in the writing or editing of BrandPosts.CLOSE Sponsored by CDW Get On The Bus Sponsored by SCDKey Windows licenses for under 13 USD!
